Hi Joseph, I'm on HTC one a 8.0.1, which is still stock, which is what you should be on as well. For that phone I had to remove the ADB and Fastboot files in the system partition to get Android studio to work correctly. From here on out you should be fine with using the mobile update. joseph ravain @Naisha Emerson : Do you know if it is possible to update via mobile update? [46] To illustrate this truth, he proceeds to ask: "Is this the highest conception of man? Is this the best thing he can or will be? Is this the way he is moving in? Is this present inner condition, under favorable conditions, and without contrary forces, going to be all the man can be? Is man meant to live, walk and care about the earth? There is no doubt but that this is just what he is doing, and as a matter of fact there is no instance in all this vast universe where the best exist in the same body and toward the same thing. The best appear to walk where few are walking, different and best for a time. This is the widest distinction and distinction is one of the strongest laws.**
